U.S. Patent and Trademark Office PTOL-37 (Rev. 1-04) Art Unit: 1751

## **Detailed Action and Reasons for Allowance**

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/23/2005 has been entered.

Claims 1-19 are allowed as amended over the arguments by the applicants and the unexpected superior properties of the claimed composition that is not obvious over the prior art of record that does neither teach nor fairly suggest an antistatic composition with superior properties containing a polycarbonate resin, an impact modifier of polycarbonate-polysiloxane copolymer, an antistatic agent and a phosphorus flame retardant in the amount of 9 wt% or greater and a method of making the antistatic composition. A further examination of the claims did not result in any new prior art and such an unexpectedly superior IZOD notch values of applicants could not be accounted for.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kallambella Vijayakumar whose telephone number is

Application/Control Number: 10/064,495
